Encore Harvester

This schedule is flexible and subject to change.

Introduction

- Introduction of trainer and trainees
- Encore Harvester enables libraries to integrate Open Archives Initiative (OAI) compliant metadata from all of a library's specialized databases into Encore. This agenda will cover how to administer, set up, run, and manage your Encore Harvester.

Setting up Encore Harvester

- Create a Repository in the Admin App
  - Identifiers
    - Repository Code and Name
  - Profiles
  - Repository Code
  - Scope
  - OAI Set
- Thumbnails

Running Encore Harvester

- Options for Running.
  - Skip ListIdentifiers
  - Ignore ListMetadataFormats Response
  - Enable debug logging

Deleting Harvested Records

- Delete by Record
- Delete by Set or Repository
- Delete by Profile
